Interest on debt, amount necessary,	
High school tuition,	2,200 00
Officers' salaries,	300 00
Statutory recommendation to selectmen	
for assessment for high school	
tuitions,	\$2,200 00

The superintendent's report herewith shows how our schools stand in scholastic tests. In almost every instance we have had a gratifying year in the school rooms. Financially the School Board has its troubles and has made every effort to obtain a fair proportion of state aid. We have procured nearly \$1,000 more than was at first allotted to us. Now aided by the town's Representative we are striving to get through the legislature the aid we should get. As the legislature will not act before March 13 the District Meeting will not be called until some later date.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Board of Education and Citizens, Swanzey, N. H.

I hereby submit my second annual report as Superintendent of Schools. It is a report of encouraging progress and satisfying achievement on the part of teachers and pupils.

The plain of organization and supervision entered upon early in the school year of 1921-22 has been carried through with gratifying results. The periodic use of standardized tests in all the schools has made it possible for the superintendent to keep in close personal touch, not only with the work of the teachers, but also with the work of each individual pupil. It has enabled him to locate definitely the specific weaknesses of pupils, classes, and teachers and to discuss intelligently with teachers how best to go about it to improve undesirable conditions wherever they might exist. After locating definitely the weak points of pupils or of whole classes by use of the tests, teachers have been enabled to concentrate their teaching efforts where they would do the most good. The interest of the pupils themselves in the test results has led to a much greater degree of spontaneous effort than is found among the pupils of most schools wherein the tests are not used.

The result has been rapid progress in the efficiency of school work. Last year the Swanzey schools were reported to average nearly a grade below the average for the nation and they were in better condition than most of the schools in the district at that. At present they are very little below, with continued efforts bidding fair to place them, by the first

of June, well up to or above national standards then the schools of Swanzey will be on a par with the best schools of the country as far as actual achievement of school work is concerned. The interested efforts and willing cooperation of the teachers in bringing about these results deserve our highest praise.

Respectfully submitted,

SAMUEL S. BROOKS,

Superintendent of Schools.
